

ATA Grassroots Program 2011 Congressional Contacts Survey

Together, We have the Power
to Move Capitol Hill!

★ We learned more than ever this year that personal relationships with legislators are vital when communicating with Congress. Our success in convincing Members of Congress to sign onto letters urging DOT to retain the current Hours of Service rules was a direct result of your relationships with your Congressional delegations. Please let us know who you know on a more personal basis so that we may contact you when that level of grassroots communication is needed. *Thank you!* ★

ATA Member Information
